

Odor-Killer™

For Flooring

Don't tear out that wood floor... or any floor because of odors

- Any contaminated wood surface can be saved using Odor-Killer.
- Hard woods, composites, concrete, etc.
- The proper application of Odor-Killer™ will eliminate your odor issues and allow you to refinish, carpet or leave as is

Just follow the directions using the Odor-Killer™ concentrate 30:1 available in smaller sizes.

Directions:

Recommended is the use of a small garden sprayer available at any hardware store, mix the proper ratio of Odor-Killer™ with water and spray covering the entire surface to be cleaned paying special attention to any area the urine, etc. may have penetrated. You must make contact with the odor causing molecules.
